### Introduction:

This E-book is the simplified version of the Wisdom Search software which was developed in year 1999/2000 for the Windows platform to search the specific Quranic references with several search options in the publications of [Saheb \(d.f.\)](#)

As we all know that technology is moving rapidly and the software became obsolete on the new platforms and developing the new software for all platforms is a big and difficult task. So, this instant E-book version is developed, with the aid of Wisdom Search Software.

This E-book version is in the Portable Document Format (PDF) & this format is used to represent documents in a manner that is independent of application software, hardware, and operating systems.

This E-book Contains Quranic references used in the publications of [Saheb \(d.f.\)](#) and there are almost 19000 Numerical Quranic reference used till the year 2012. If printed, this E-Book would spread on 3000 pages.

There are many books of [Saheb \(d.f.\)](#) which are reprinted after year 2000. So both the page numbers of previous edition and page numbers of the new edition are mentioned in the database with a Slash "/" between them: [Example](#)

### [How to use E-book](#)

### Acknowledge:

To acknowledge means to thank. Since a software like Wisdom Search and its E-book version could never really have been the work of one person, We would like to thank all the family members of Monoreality for their cooperation in the printing, collection and filling of the database forms, Information gathering, data entry in the computer database, rechecking of data forms, rechecking of computer data entries and many more responsibilities.

This task was done in two phases between 2 eras:

1. Year 1999 / 2000
2. Year 2012 / 2013
